MADISON LAW-ABIDING SINCE LAST COURT

Judge Finds Little To Feature In Charge To Grand Jury But Touches On Pistol "Tutting."

Madison county folks have been unusually law abiding—of course, with the exception of minor infractions—since last term of circuit court, that really there was nothing particular for Judge W. R. Shackelford to feature when he made his charge to the grand jury this morning. So he covered the whole situation briefly but pointedly for the benefit of the grand jurymen, and did not devote much time to that phase of getting the May term of circuit court under way.

The Judge did emphasize the duty of the grand jurymen to carefully investigate the pernicious habit of many carrying deadly weapons to concealed which he characterized as cowardly and low-down. The grand jurymen were selected as follows: Messrs. John L. Coffey, R. N. Lanter, J. M. Haden, Jerry Parish, G. C. Burgin, R. H. Minter, Green Stocker, Haden Turnip, Sam Lackey C. H. Pigg, and T. S. Haden.

The petit juries drawn were as follows: Messrs. Joe Hamilton, Taylor White, Wilson Tate, R. K. Stone, E. Fish, D. L. Cobb, William L. Hagan, William Brandenburg, C. C. Long, Lafe Duerson, Ralph Parks, R. L. Long, F. E. Spurling, Frank Long, G. B. Turley, W. P. Dunbar, Dennis Taylor, Robt. Dunn, Clarence Wills, W. T. Adams, M. A. Collins, Oakley Wells, Harry Allen, Jacob Hackett, Seth Todd, Leslie Tipton, Calvin Goldsway, T. J. Black, T. J. Mason, and Larie Duerson.

Court Immediately Got Under Way. Commonwealth's Attorney, B. A. Crutcher, was on hand from Winchester. Judge J. M. Benton, of Winchester, was also a visiting attorney.

ONE WILL PROBATED

County court was rather dull Monday. There was one will offered for probate before Judge Price, that of the late J. W. Lewis, of Berea section of the county. Mr. Lewis left all of his property except one small tract of 25 acres to his wife during her life-time and at her death to be equally divided among the heirs. In the event he did not sell the 25-acre tract, she was to have that, too, after his just debts were paid. He named her executrix without bond.

WILL TOUR THE WORLD

Ensign Arnold Hanger, who recently graduated from U. S. Naval Academy at Annapolis, will soon start on a tour of the world which will occupy perhaps a year. He will be accompanied by Ensign James Cromwell, of Philadelphia, who is expected here today to make him a short visit before they leave. They plan a most delightful trip of globe-trotting and will go first from here to Panama, Jamaica, through Central America, spend some weeks in the interior of South America; thence to Australia, Japan, China, and will probably return via the Suez Canal and see the pyramids and other wonders of Egypt.

CUPID'S CAPERS

Dan Cupid has been rather busy in the county since last report. The following licenses for weddings were granted by County Clerk Jennings Maupin:

Craven Peyton, 21, of Newby, and Ora Alexander, of Richmond, who were married April 19th.

Elijah M. Jowdy, 35, who was born at Mt. Lebanon, Syria, but is now a resident of Red House, was granted license to wed Clara Broadus Shifflet, 22, of Richmond. They were married April 23rd.

James Lakes 30, and Nellie Alexander, both of Kingston section, and were married April 26th.

Henry Ballew, 22, and Martha Raines, 18, married May 1.

Everet Winburn, of Richmond 26, and Elizabeth, 23, of Louisville, married May 3rd.

William Wright Jesse, 55 and Sallie Oldham Todd, married May 6th. Both were married before but had been divorced.

OWENSBORO PREPARING

Local Knights Templar are interested in plans for the annual conclave which will be held at Owensboro May 21-22. The local commandery is planning to send quite delegation. The Covington commandery has chartered a boat and will bring about 100 Knights and about thirty ladies, who will be "housed" on the boat during the conclave. This commandery will bring Smits' band from Cincinnati. The De Molay Commandery from Louisville will come on a special train, bringing the commanderies from Lebanon, Danville, Marion, and Lexington. There will be more than 500 visitors in the city.

While they would appear to be just as valuable this year as they were last, trunk line railroads in Kentucky are worth for purposes of taxation 10 per cent, less than they were a year ago, according to their own reports filed with the State Auditor, on which the State Tax Commission calculates their assessments.

TELEPHONE RATES GO UP ALL OVER STATE

Similar raises are being made all over the state and nation, and numerous suits are being filed to prevent them if possible. MAT COHEN DEFENDS THE NEW DOG LAW

Commissioner of Agriculture Answers Article Written by Woods Walker of Paint Lick.

Commissioner of Agriculture Mat S. Cohen has answered the card of Col. Woods Walker, regarding "That Good Dog Law," which has been sent to the newspapers for publication. Mr. Cohen writes as follows:

April 16, 1919

My Dear Mr. Editor:

Complying with numerous inquiries relative to an article which is now going the rounds of the press over the signature of TAX PAYER, in which various writers who interpret the law are aird in such a manner as to convey the impression that the Commissioner of Agriculture is alone responsible for the new Dog Law enacted by the 1918 session of the Kentucky Legislature, I wish to point out that the motive which induced the Commissioner of Agriculture to get behind the enactment of such a measure was in order to increase the salary of the Commissioner of Agriculture, as put by "TAX-PAYER" to the extent of \$12,000 annually, all of which is to be paid in full, and misleads the fact that I am forced to reply to "TAX PAYER" through the same medium, and will ask those papers having published "TAX PAYER's" article to please give the same consideration to the State Department of Agriculture and publish over my signature this reply.

I am advised that during the fall of 1917 the National Wool Growers' Association wrote to 3000 farmers in Kentucky, asking them if they had sheep on their farms, if so, how many, and if not, why not.

To this something like 2,400 replies were to the effect that they did not have any sheep on their farms, that when ewes were worth \$3 and \$4 per head they could afford taking chances with the dog, but when stock ewes had become worth \$10 to \$12 per head with no restrictions earthly with the dog, they felt they could not afford to take the chance of producing sheep as they were.

When this information was conveyed to Mr. Richard Stephenson, president of the Kentucky Sheep Breeding Association, Lexington, Ky., realizing the great shortage of sheep not only in Kentucky but America, and further acknowledging the imperative need and crying demand for the greatly increased supply of meat, wool and hides, Dr. Stephenson called a meeting of the Kentucky Wool Growers' Association and others interested in the sheep industry of this state to meet at Lexington, Ky., January 23, 1918, for the purpose of taking the necessary steps toward increasing the sheep production of this state and the required protection to the industry.

Prior to the meeting of January 23, and after several conferences of the Kentucky Sheep Breeders' Association, a tentative draft of a dog law was drawn and submitted to those present for consideration and adoption, which, after some amendments by a committee appointed by the Kentucky Sheep Breeders' Association, the 1918 Kentucky Legislature crystallized into law the Act now known as the Dog Law, and that provision placing of same under the Commissioner of Agriculture, and allowing the Commissioner of Agriculture 5 per cent of the total amount collected for sheep in the state, to be used by the Commissioner of Agriculture for the general enforcement of same under the Commissioner of Agriculture.

The Act provides, among other things, that the assessor or tax commissioner shall receive 10 cents for each dog listed, and the county clerk 5 cents for each license issued.

The smallest commission allowed the county clerks under any act for work of like character.

Now, is the 5 per cent allowed the Commissioner of Agriculture an adequate amount to effectively enforce the act, as intended by the legislature?

There was never any question in the minds of the committee who drafted this act other than that the local or state enforcement of the same should be placed in the hands of the sheriff, and realizing that many of the sheriffs have as their deputies men who are prospective candidates for sheriff, and being desirous of removing the general enforcement of the act as far from any political or local influence as possible, and realizing that the live stock industry of the state is a large part and parcel of the agricultural industry of the state, the committee selected by the Kentucky Sheep Breeders' Association then placed the general enforcement of same under the Commissioner of Agriculture.

Relieve Your Indigestion With A Laxative

Dyspeptics know that indigestion is accompanied by constipation, and that until the bowels can be regulated so they will act freely and naturally every day at a stated time, swallowing dyspepsia tablets is of little use.

A great and growing number of sufferers from this trouble find immediate and then permanent relief by the use of a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepain. The laxative herbs act on the bowels and the pepsin and extracts on the digestive tract, forming an exceptionally effective laxative-tonic.

It is a combination that has been found wonderfully helpful in indigestion, constipation, biliousness, headaches, bad breath, belching and gas on the stomach. A small dose is all that is required.

The druggist will refund your money if it fails to do as promised.

LOCAL DIVISION SHEET IN ON RICH OIL ROYALTY

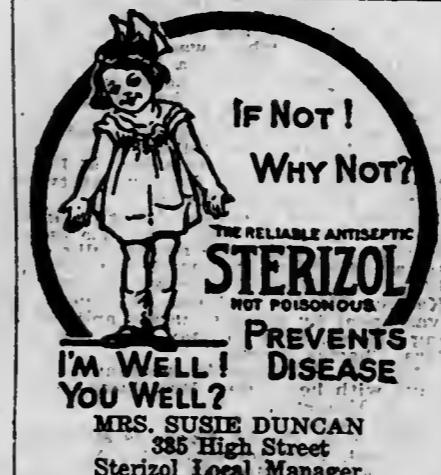

Local holders of royalty interests in the big Wells heir tract in Lee county were gratified to have their division sheet finished up the past week under the able handling of Attorney G. Morris Smith. It has now gone into the Indian Refining Company and it is expected that the owners will soon begin to receive some fat checks, as there is said to be an immense sum in the royalty fund, representing almost a year's production. There are now something like 60 or 75 wells on the 1440 acres, and the production is about 1,000 barrels of oil a day or \$2,600 a day, and the lease is not a sixth drilled in as yet. So it can be seen that the Morris Smith men who have interests in this have some splendid prospects before them. Eight new wells were brought in during the past week by the Petroleum Exploration Company, which is operating this big lease. Well No. 1 is on the old John Wells Colliery. Fred Sloss, in which local parties are also interested, was reported in and as good for 100 barrels of oil per day.

Lincoln county continues to attract attention of oil men. The Interor Journal says last week that the "gusher" that was brought in there:

The drill was again applied to the great well on the John Wells farm Thursday and 2 more feet of the oil sand penetrated. A great flow of oil was produced and it came to the top so rapidly that it was almost impossible to keep it baled out. There are many who believe that a few more feet down will insure a gusher and the well will give no thorough test just as it did not give a sufficient test to save the oil. As stated before, the oil is of a very fine variety and commands a much higher price in the markets than the ordinary oil found in Estill and other fields. It contains a great amount of gasoline and is inflammable as to gasoline and is known to be about it with a lit match or cigar. Well No. 2 on the Wells farm will be some 250 feet north of the well No. 1 and much interest is manifested as to what it will be. If it is anything like the first well, it will be a great dream that he had sold his farm for \$50,000 may come to pass before another week of the present month rolls around.
